

Marcus Romundset

+1 (917) 984-0414 | mromundset@berkeley.edu | <https://www.linkedin.com/in/romundset> | <https://marcusromundset.com/>

EDUCATION

University of California, Berkeley

B.A. Computer Science & B.A. Economics (Honors Program) (Dual Degree)

Expected Graduation: May 2027

(SAT: 760R, 780M) GPA: 3.87/4.0

Relevant Coursework: Discrete Math & Probability Theory | Financial Economics | Econometrics | Micro & Macro Economics | Efficient Algorithms | Machine Learning | Computer Architecture | Database Systems | Multivar. Calculus | Principles of Business

PROFESSIONAL EXPERIENCE

Norges Bank Investment Management | *Quantitative Strategies Intern*

Jun 2026 - Present

- Led development of Net Asset Value (NAV) explanation engine at the world's largest sovereign wealth fund (\$2.3T AUM). Architected a valuation system that evaluates and explains daily NAV deviations for 62,000+ positions and 650 portfolios.
- Deployed agentic AI pipeline on AWS, triggered via SNS, pairing ML anomaly detection with dbt/SQL valuation logic.
- Saved \$400M in capital-at-risk by flagging 47 erroneous NAV deviations in 22 portfolios across a 2-week validation pilot.
- Delivered insights to 350 portfolio managers daily, with automatic MP explanations saving 220hr/week in manual work.

Nording & Partners (Boutique Mngmt. Consulting) | *Visiting Associate*

Jan 2026 – Mar 2026

- Led 8-week operational efficiency engagement for \$200M+ architectural glass manufacturer, diagnosing middle-management workflow inefficiencies through on-site stakeholder interviews and process mapping across value-chain delivery functions.
- Developed models forecasting $\pm 20\%$ construction demand sensitivity, informing pricing discipline and bid-risk thresholds.
- Interviewed 18 project leaders on-site on operational bottlenecks, condensing internal deal workflow from 14 to 6 steps.
- Presented operational strategy to Board, driving +45% faster project-bid proposals and projected +30% payroll savings.

Dualog | *Product Management Intern - Maritime AI Solutions*

May 2025 – Aug 2025

- Led 5-intern engineering team building AI-native features for Dualog Mail - a maritime software deployed on 5,000+ vessels across 130 global fleets. Supported 11 ship management clients valued at \$40B+ combined through pilot testing and rollout.
- Built NLP-driven anomaly detection models analyzing ship-to-shore email traffic, reducing preventable delays by 28%.
- Synthesized 160+ insights to uncover a \$15M market vacuum, expecting 20% capture in 3 years via upsell to 3,200 vessels.
- Engineered a RAG platform for ship data using vectorized knowledge bases, projected to save \$2.5M in on-shore payroll.

NVIDIA | *Product Management Intern - Sales Forecasting*

Jan 2025 – May 2025

- Directed 8-person machine learning forecasting team tasked with improving NVIDIA's Bayesian log-linear regression demand forecasting model. The project objective was to forecast 3-6 qtr. GPU demand, optimizing sales and supply-chain readiness.
- Feature-engineered forecasting model through 8 data-techniques such as RFS, PCA, lag-optimization, and interaction terms.
- Mobilized research on finding new covariate datasets, cleaning and testing 230+ unique features on GPU-demand impact.
- Quantified +\$8.3M GPU revenue upside from +0.7% forecasting accuracy gain. Informed strategy on supply-chain ops.

J.P. Morgan Chase | *Corporate Strategy Intern*

Aug 2024 – Dec 2024

- Collaborated with Western Regional Minority Supplier Development Council to present 50+ partnership opportunities to their Board of Directors. Contributed to a 40% increase in the WRMSDC's procurement catalog for corporate sponsors.
- Led analysis on diversity spend from 32 corporations, resolving regional gaps and increasing portfolio diversification by 24%.
- Developed automated corporate partner scoring frameworks across 6 KPIs, expediting supplier qualification cycles by 70%.
- Advised executives on supplier diversity investments, scaling strategic initiatives and influencing board-level DEI priorities.

LEADERSHIP & ACTIVITIES

DiversaTech Consulting | *President*

Jan 2024 – Present

- Led diversity-focused NGO consultancy serving 60+ clients, including Google, LinkedIn, Microsoft, and PayPal. Managed 45-member team and scaled campus outreach to 1,700+ students through 25+ workshops, panels, and recruiting events.
- Rationalized new executive position of VP of Inclusion, intending to increase minority outreach. Exceeded recruitment goals, with a 180% increase in underrepresented minority applications and 230% increase in minority first-round interview makeups.
- Negotiated \$80,000+ in funding for strategy, technical, and design projects, contributing to a 40% increase in YoY budget.

UC Berkeley Club Golf Team | *Team Captain*

Fall 2025 – Present

- Captain of 22-player collegiate golf team; defeated Stanford, Santa Clara, and CSU East Bay in heads-up tournament play.
- Built a cohesive team culture through structured practices, mentorship of new players, and strong alumni engagement.
- Organized team training sessions, travel logistics, and intercollegiate matches across Northern California club golf programs.

SKILLS & INTERESTS

Technologies & Skills: Python | TypeScript | Java | C++/# | SQL | Pandas | AI/ML | PowerPoint | Excel | Fixed Income

Honors & Media: UC Berkeley CS Honors Society | Dean's List | Featured in *The Daily Californian* for RSO Leadership

Personal Interests: Golf (0.8 HCP.) | Cross-Country Skiing | Mountaineering | Watch Collecting | Frenchies | Foreign Cuisines
